Gentlemen:

Please note that the last paragraph of Article 6 of our Contract for the issuance of banknotes reads as follows:

> "Each denomination of banknotes shall be subdivided into series of 1,000,000. gourdes, designated by distinctive letters, and each note numbered consecutively."

It is, therefore, important that the series of notes (regardless of their denomination) do not exceed in face value One Million Gourdes.

The first definitive notes so far printed -10 Gourde denomination - were for 2,500,000., all of one series. We succeeded in having them accepted after much difficulty, but we are certain that in future the Government will not recognize any series that does not comply with the conditions as stated in Article 6, above referred to.

We shall, therefore, thank you to bear these terms in mind when continuing the printing of our definitive notes.

J. B. P.

March 11,1920.

Attention Mr. R. L. Farnham, Vice President.

Banque Nationale de la République d'Haiti,
60 Wall Street,
New York.

Dear Sirs:-

DEFINITIVE NOTES

Your letter of March 9th received. We take note from the same that in accordance with Paragraph 6 of your Contract with the Government for the issuance of these bank notes, it is specified that:-

> "Each denomination of bank notes shall be subdivided into series of 1,000,000 Gourdes, designated by distinctive letters, and each note numbered consecutively."

We will, therefore, in accordance with these instructions, see that each denomination of notes shall be sub-divided into series of 1,000,000 Gourdes, face value.

We exceedingly regret that the first 250,000 notes of 10 Gourdes denomination which have been delivered were all of one series, although covering the face value of 2,500,000 Gourdes. This, you will agree, is no fault of ours, as you will see by consulting our past correspondence on the subject, and as we had no copy of the contract in hand we could not detect the error.

By the way, we understand that outside of preparing the dies and the necessary plates for all denominations of this issue you have not as yet confirmed in writing to us that we are to proceed with the printing of these with the exception of the 250,000 - 10 Gourdes Notes.

We would be greatly obliged to you if you would be good enough to let us know whether we are to proceed with the printing.

Yours very truly,

Vice President.

Attention Mr. R. L. Farnham, Vice President

Banque Nationale de la République d'Haiti,

60 Wall Street, New York City.

Dear Sirs:-

Supplementing our letter of the 11th instant, it is our understanding that you have made a special arrangement whereby Serie A of the 10 Gourde Notes will cover 250,000 single notes instead of 100,000 as provided by your contract with the Government. We will accordingly arrange to commence the numbering of the next order for this denomination from B000001/B100000 and successively in series of 100,000 notes of the denomination of 10 Gourde.

It is our understanding that the numbering of the notes of the other denominations will be carried out as follows: -

One Gourde - A0000001/A1000000 and successive series with 1,000,000 Notes to a Serie.

Two Gourde - A000001/A500000 and successive series with 500,000 Notes to a Serie.

Twenty Gourde - A00001/A50000 and successive series with 50,000 Notes to a Serie.

In the interests of accuracy we would appreciate your kindly checking over these numbers and confirming our understanding as detailed above.

Yours very truly,

Gentlemen:

Referring to your letters of March 11th and March 12th concerning the numbering of the various denominations of the issue of new Bank Notes which you are engraving for the Banque Nationale de la Republique d'Haiti, we would say in reply thereto that your understanding of the manner of the numbering of the Notes of the several denominations which remain to be engraved, ~~and~~ as set forth in your letter of March 12th is correct; namely as follows:

One Gourde - A0000001/A1000000 and successive series with 1,000,000 Notes to a serie.

Two Gourde - A000001/A500000 and successive series with 500,000 Notes to a serie

Twenty Gourde - A00001/A50000 and successive series with 50,000 Notes to a serie.

We trust this confirmation will be satisfactory.

Attention Mr. R. L. Farnham, Vice-President

Banque Nationale de la Republique d'Haiti,
60 Wall Street, New York City

Dear Sirs:-

Referring to your recent conversation with our Mr. Cowan, we have entered your order for 7,500,000 Notes of 1 Gourde of your Bank to be prepared according to the engravings approved by you in September 1919.

Answering your inquiry about delivery, we beg to advise that in view of present labor conditions and of the difficulty in obtaining prompt delivery of materials we hardly think it would be safe to promise a complete delivery of more than 2,500,000 notes of this denomination before November 1st. According to present plans, we can deliver - say 500,000 notes by October 1st, an additional 1,000,000 about October 15th and another lot of 1,000,000 about November 1st. These deliveries will be made concurrently with deliveries of the 2 Gourde Notes about which we have already written you.

As already explained, this order is having our very best attention and if conditions improve we will endeavor to better the promises of delivery outlined above.

Yours very truly,

CGC B

Attention of Mr. Lane

Gentlemen:

We have received from our Bank Manager in Haiti advices that what they think is a counterfeit of the provisionary One Gourde Notes has been detected and in order to make sure, they have sent us one of these supposed counterfeit Notes together with five other One Gourde Notes, all of which seem to be quite all right.

I am sending these to you with the request that you give us your opinion in respect of the Gourde with the crosses marked on it. You will observe that the reverse side seems to be washed out.

We will be glad to have your opinion on this matter.

Yours truly,

Attention Mr. R. L. Farnham, Vice President

Banque Nationale de la Republique d'Haiti,
60 Wall Street, New York City.

Dear Sirs:-

We acknowledge receipt of your letter of the 24th instant and have examined the 1 Gourde Haitian Note, Serie M, No. 29560, which was thought to have been a counterfeit note.

We are glad to report that in our judgment this is a bonafide note; the discoloration on the back is the result of the note being subjected to some chemical which, as you will observe, has absorbed a great portion of the ink leaving a yellow tinge. In this connection, we might state that we have seen notes from time to time which have been discolored in this manner after having gone through a laundry.

We return herewith the six notes received with your letter and referred to therein.

We ae glad to have had the opportunity of examining the note in question and remain

Yours very truly,

C. P. R.
July 5 1921

July 1,1921.

Attention Mr. R. L. Farnham,
Vice President.

National Bank of Haiti,
60 Wall Street,
New York.

Dear Sirs:-

With further reference to your inquiry for Fractional Currency notes for your Bank, we beg to hand you herewith a card upon which we have shown five sizes for work, or engraving, under that of your One Gourde note, together with five pieces of paper cut to what would be the trimmed size of these notes after having been printed.

These sizes are what we would suggest for notes of small denominations and which work out to the very best advantage from a printing standpoint and, therefore, allow us to make most advantageous prices. However, they are only suggestions and may be changed if not found to your liking.

Owing to the matter of exchange, together with the face values of this proposed issue, we have studied very carefully the question as to what kind of a note would offer you most security at the least expense, and are of the opinion that one made up with a steel engraved face and a multicolor back, similar to the manner in which those of the Hunan Provincial Bank and the Fu-Tien Bank are prepared, proofs of which we are enclosing, would best serve your purpose.

Bank notes of this character, made up in a size similar to those which we give you, in quantities of say 500,000 of each denomination, would cost approximately from $6.00 per 1000 for the smallest size to $12.00 per 1000 for the largest size,- while notes with two steel printings, that is, with one steel printing on the face and one on the back, of the sizes as indicated on our card, similar to that of the proof of the Banco Nacional de Costa Rica 25 centimos which we are enclosing, would run about $2.00 per 1000 more, and those with a steel face and back , with a tint on the face, like the note of the Banco Internacional de Costa Rica, 50 Centimos, and the Banco Nacional de Nicaragua, 25 Centavos, would again increase in cost from $1. to $2. per 1000.

On notes of say the three smaller sizes given you we would also suggest that but one number be shown on the face. This both cheapens the cost of manufacture and helps to hasten delivery.

Owing to the fact that we have no details as to just what is to be shown on this prospective issue of notes we have purposely stated that our prices are only approximate and would not cover the cost of engraving any special vignettes which might be required. However, we hope that these figures will serve to give you some idea of what notes of these sizes would be worth and that we may shortly hear from you again giving us further details as to your actual requirements, so that we might make up a model for you showing what we propose furnishing and give you definite figures.

We trust we have made this matter quite clear to you and that we may soon hear we are to have the pleasure of executing an order for these notes for you.

If there is anything further we can explain or tell you the writer will be very glad to call upon you at your convenience.

Thanking you for your inquiry, we beg to remain,

Yours very truly,

Manager Foreign Department.

Dear Sir:

Re: BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI

In line with request of your Mr. Potter, we beg to submit for your consideration our quotation on your possible requirements for four additional denominations of gourdes notes for the above bank.

It is our understanding that these notes are to be prepared in the same size and along the same general lines as the denominations previously prepared by us and now current in Haiti. On this basis our quotation would be as follows:

500,000 -	5 Gourdes note -	$13,500.
50,000 -	20 " "	4,000.
20,000 -	50 " "	3,500.
10,000 -	100 " "	3,000.
Preparation of necessary engraving 4 denoms.		5,000.
	Total	$29,000.

We await the opportunity of taking up this matter in detail with you,

Yours very truly,

BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI

Spoke with Mr. Potter this morning concerning probable issue of notes on which we estimated on December 14th 1923. He advised us that Mr. Gregory of the City Bank is now on his way to Haiti and while there will take up the matter of a new issue. There seems to be a very good possibility of these notes being put into circulation. We will probably hear from the Bank along the end of February or early part of March.

Dear Sir:

Re: Banque Nationale de la République d'Haiti

Supplementing our letter of December 14th 1923 and confirming conversation had with your Mr. Potter, we beg to submit for your consideration our quotation on possible issue of four additional denominations of gourdes notes for the above bank in the following quantities:

1,000,000	notes -	5	gourdes	$22,000.00
100,000	"	20	"	5,500.00
40,000	"	50	"	4,500.00
20,000	"	100	"	4,000.00
Preparation of necessary engravings 4 denoms.				5,000.00
				$41,000.00

The above figures are based on preparation of notes of the same size and along the same general lines as the denominations previously prepared by us and now current in Haiti.

As explained to Mr. Potter, we have on hand the die engravings for the 20 gourdes note, which was prepared at the same time as the other denominations for this bank. At that time we did not receive a printing order and pending same, charge for the engraving of this denomination was not made. Our quotation as shown above includes charge for this work.

We understand you are considering the possibility of using a 25 gourdes note in place of the 20 gourdes. We find that we would be able to alter the present engravings of the 20 gourdes note for the 25 gourdes. For this work we would make an additional charge of $500.00, which should be added to the above figure as well as to our quotation of December 14th 1923.

We enclose herewith for your information a proof of the 20 gourdes note face and back. As the proofs are taken from our files, we would thank you for their return when they have served your purpose.

We shall be glad to go further into these details with you at your convenience.

Dear Mr. Lane:

Inasmuch as I am being transferred to another part of the bank in which I will have nothing to do with the affairs of the Bank of Haiti, I am returning to you the copy of the 20 Gourde note which you so kindly loaned us a short time ago.

The question of increased circulation for the bank is under constant discussion but up to the present time nothing definite has been decided upon. Mr. Gregory has, of course, your offer before him and will get in touch with you when a decision is reached.

In view of the present low value of the Gourde, we have purposely made our prices in both instances below that previously quoted by us, which - as explained to Mr. Young, there is no real reason for except our desire to help you out in a situation which is not the fault of either of us.

Owing to the fact that we are now in a position to put either or both of these orders in execution at once, may we ask you to be good enough to advise us of your decision at as early a date as you possibly can.

Trusting we are to have the pleasure of executing both of these orders, we remain,

I enclose herewith copy of a letter, dated the 2nd August, addressed to me by Mr. Gibbs. In the circumstances, we have thought it advisable here to call on the National City Bank, and we have elicited the following information:-

a. That Mr. Weeks, who is a Vice President of the National City Bank, is not at the moment in London, but away on the Continent.

b. The London Manager informed Mr. Jenkins that last May they had asked for tenders from Messrs. Waterlow & Sons and Messrs. De la Rue, and that,

c. As far as he knew, no action had yet been taken, and, if not too late, he would endeavour to secure us an opportunity to quote for these notes.

SEP 16 1925

2nd August, 1925.

Dear Mr. Hendriks,

Bank of Haiti.

I have met and become very friendly with John Willett, the Manager of the National City Bank, in Montevideo. He is staying in this hotel, and knows my object in coming here. He asked me the other day approximately what notes cost. I judged it was idle curiosity, and gave him the usual reply about quantities, sizes, etc., and said in his money it varied from 1 to 2 cents a note. Later he told me that he had had an object in asking me. A Mr. G.E. Gregory, Vice President of the National City Bank, had been with him in Montevideo, and, hearing of me, had asked Willett to ask me about note prices. It seems that the National City Bank control and own the Bank of Haiti, and that this Bank has the sole right to issue notes in Haiti. Gregory told Willett that the National City Bank was not going to continue to pay the high prices charged by the A.B.N. Co., and that he was going to find out where they could be cheaply printed.

Gregory had left for Buenos Aires by the time I learnt this, and so I immediately followed him, and saw him at the Plaza Hotel at B.A. last week.

He told me that it was quite true, and that the National City Bank would not continue to pay the high prices charged by the A.B.N. Co., especially for the low value notes, and that they would either have them printed elsewhere, or they would issue coin. He said that he had asked the Manager of their London Office, Mr. Weeks, to make a report to him on Bank Note Printers in England, and also that he had asked the Manager of his Paris Office to do the same.

Feeling sure he knew of the relationship between ourselves and the A.B.N. Co., I promptly mentioned it, but, to my surprise, he knew nothing of it. He said that, if that was the case, it was useless my talking to him, as we were the same as the A.B.N. Co., and that we would certainly compare prices, to the disadvantage of the Bank. I said that would not matter because, (1) We could not justify in England the high prices charged in America and (2) There would be other English competition, other then ourselves.

He said a combination, such as existed between the A.B.N. CO. and ourselves, was illegal in the States. I said it could not be considered so, when nothing was concealed, and showed him how we were considered an English Firm by the Authorities at home.

Eventually, after being rather indignant, he told me to get in touch with Mr. Weeks, if that gentleman had not already got in touch with us.

Having established this point, because at one time I was fearful that he might enter into pourparlers with W. & S. and De la Rue, I pointed out to him that he couldn't get better notes than those printed by the A.B.N. Co., and that there were other considerations besides price. He replied that the price charged by the A.B.N. Co. for the low value notes was excessive, and that the National City Bank would not continue to pay those prices.

It occurs to me that there might be an opportunity here for the A.B.N. Co. to leave off a printing or something, and so make an economy on these low values. Otherwise it is my opinion that W. & S. and the others will be after this order. Anyhow, I leave the matter in your hands. I have not cabled, because nothing will be done until Gregory's return to the States, which will not be until September.

Yours sincerely,

(Signed) E.N. GIBBS.

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the sum of five thousand dollars, at which amount each message is deemed to be valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

5. The Company will not be liable for damages or statutory penalties in any case where the claim is not presented in writing within sixty days after the message is filed with the Company for transmission.

6. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

7. Special terms governing the transmission of messages under the classes of messages enumerated below shall apply to messages in each of such respective classes in addition to all the foregoing terms.

Re: NATIONAL BANK OF HAITI

SEP 16 1925

Dear Mr. Hendriks: September 15, 1925.

I confirm your cable of September 4th:

> "September 4th Bank of Haiti refer to my letter of August 28th National City Bank of New York London Office want quotation for 1 Gourde notes, we gather Waterlow Sons & Co. London have quoted £4 sterling per thousand but they recommend photogravure at 30 shillings as being good enough for that value notes what are we to do."

My answer of the same date:

> "September 4th refer to your telegram of 4th National Bank of Haiti have not received your letter of August 28th as yet Stop. Order has been received and work is in progress 2,000,000 notes 1 Gourde at 17 dollars 50 cents price per 1000 U.S.Gold f.o.b. NY. Stop. You may quote but you must protect our price Stop. As far as we are concerned absolutely decline quote on bank notes except steel engraved."

Also my cable of September 11th:

> "September 11th National Bank of Haiti order has been awarded to us for 1,000,000 notes, 2 Gourdes by National City Bank of New York price per thousand U.S.Gold f.o.b.New York 19 dollars 50 cents be guided in accordance with. Stop. There will be no further requirements for some time."

At the time your cable was received the letter referred to had not yet come and it is only on September 8th that it was received.

I must say that I was more than surprised to learn that you were requested to bid on an order for 1 Gourde notes, which was already placed with us a few weeks before and in process of manufacturing. Your cable however demanding an answer the same was sent you with the request that our prices must be protected, which was $17.50 per thousand for an order of 2,000,000 one Gourde notes. A few days later as advised you by cable we were favored with a further order for 1,000,000 notes of two Gourdes at $19.50 per thousand.

I understand now that the National Bank of Haiti has sufficient notes to last them for some time, having reached the limit of currency as accorded by law. So I do not think they will be in the market again for some time. You will please therefore, if not too late, refrain from quoting on other values without first referring the matter to me.

In the early part of June when the National City Bank made inquiries for reprint prices they called our attention that they could not afford, owing to the low rate of exchange in Haiti, to pay our prices. We naturally offered them for the low values to make up a smaller note which they declined to consider stating that they did not wish to make any change in the present currency which had given them so much satisfaction. After discussing the matter further we asked the bank to make up the above order and we accorded them a reduction from the former prices and we feel they are perfectly satisfied with the treatment they received from the company. It is my feeling that this apparent inquiry for prices from English firms was simply made to compare figures which, I am pleased to see from your cable, compare rather favorably with Waterlow & Sons' when it comes to a full steel engraved note. Our relations with the National City Bank have always been most pleasant and it is rather hard for us to understand Gibbs' report regarding the A.B.N.Co. after his interview with Mr. Gregory. It is our intention however as soon as the latter returns to the States to call on him and find out if there really is any discontent as reported.

With reference to Gobbs' letter of August 2nd on this subject I should judge that the latter has talked entirely too much and has certainly not accomplished much good for either of us in volunteering any information he was not requested to give. I am very much surprised to see with the experience which he is supposed to have acquired in the last few years that he should have shown so little tact, diplomacy and good judgment, which were necessary in this special case. He certainly could have obtained sufficient information from Mr. Gregory or Mr. Willett without foreseeing a request for a bid. However, the damage has been done and the best thing I can do is to see that it is smoothed over to the best of our ability. Gibbs should remember that the A.B.N.Co. has been furnishing these notes ever since the bank was established and everything should be done to retain this business, which we intend to do at all cost.

I shall be interested to hear how far you have progressed in the Uruguay bank note matter and when you may expect Gibbs' return.

Mr. G. E. Gregory, Vice President and Comptroller
Banque Nationale de la République d'Haiti,

55 Wall Street, New York City.

Dear Sir:

In accordance with your request, we are pleased to confirm conversation had with our Mr. Lane at a recent interview with you concerning the preparation of notes for your Bank of a reduced size. As stated by him, these figures are only approximate and would be subject to revision when the data is in more definite form and the size of the note selected.

For an issue of 2,000,000 or more notes, of any one denomination, carrying a steel engraved face with a special protective colored tint background, known as our major tint process, a steel engraved back, and using our regular bank note paper, we would estimate as follows:

For one denomination:
Preparatory work including engravings - approx. $1250.00

Notes - trimmed size 6 1/8 x 2 5/8 - approx. $15.50 per 1000
" " 5 1/8 x 2 1/2 - " $12.50 " 1000

We enclose herewith dummy trimmed sheets of a note size referred to above.

The paper stock which we would furnish for these notes is the same as we supply for all of our clients throughout the world and also the same as used by the United States Government. The high standard and quality of this paper has been established after years of experience and experimenting in an endeavor to secure a paper material which will withstand to the greatest degree the uses and abuses of circulation.

One can appreciate the highly specialized feature of bank note paper when one realizes that the mill supplying this stock is the only paper manufacturer in the United States producing paper of this standard and quality. Experience has found that inferior quality of paper used on bank notes greatly shortens the life of a note thereby necessitating its replacement in a shorter period of time, and as a result greatly increases the cost of circulation.

As previously stated, may we again mention that these prices are intended only to give you an idea of the saving which might be made in reducing the size of your notes and not as a firm quotation on your requirements.

We appreciate the opportunity of conferring with you on the proposed change in the size of notes for your Bank and we offer the facilities of our organization in working out your plans.

Yours very truly,

July 6, 1927.

BANQUE NATIONALE DE LA RÉPUBLIQUE D'HAITI

I called upon Mr. Gregory this afternoon in reference to the prospective new issue of notes for the bank. He stated that they were not ready yet to go into the details and that he would get in touch with us later.

The present plan seems to be to have the two low denominations of the very small size notes and the other denominations the size of the new United States currency.

He further stated that he was very certain he could get notes that would meet the requirements of the bank at a figure much lower than any we had given.

There is a possibility of the new issue being taken up in the very near future.

JUL 9 1927

American Bank Note Company,
70 Broad Street,
New York City.

Gentlemen: Attention: Mr. Lane

Referring to our conversation relative to the preparation of new plates and the printing of an issue of notes, permit me to say that I would appreciate an estimate for the engraving of new plates and the printing of notes in the following denominations:

1 Gd.	5,000,000	pieces
2 Gd.	2,000,000	"
5 Gd.	500,000	"
10 Gd.	100,000	"
20 Gd.	100,000	"
50 Gd.	100,000	"
100 Gd.	40,000	"

You will observe that we will require seven new plates, each one to be distinctive in its having either a pictorial view or a vignette of one of the historical characters of Haiti. I would like to be advised as to what you would require in the way of copies from which to make your drawings.

I have decided that the one and two Gourde denominations should be 2-3/8 x 4-¾" and that the other denominations should be 2-5/8 x 6-1/8".

2 11/16 x 6 5/16

Very truly yours,

G E Gregory

Mr. G. E. Gregory, Vice President and Comptroller
Banque Nationale de la République d'Haiti,
c/o The National City Bank of New York,
55 Wall Street, New York City.

Dear Sir:

Since receipt of your letter of July 8th we have made a careful study of your note requirements as detailed therein. In preparing our estimate for the higher denominations of notes, we have taken as our size that of the new United States currency as we now understand the dimensions, namely - 6 5/16 by 2 11/16.

We note with satisfaction that the prices which we are able to quote you show a substantial reduction over the prices which you have heretofore paid, especially for the lower denominations, and should you adopt these new sizes, a material saving would be made on your circulation.

For the preparatory work, including the engravings with our stock vignettes, there would be a charge of $1,250.00 for each denomination. Should you desire special vignette engravings of subjects or portraits, there would be an additional expense, the cost depending upon the character and detailed work of the vignette to be reproduced. We will be glad to go into the details of any special engravings with you and give you the benefit of our experience in the reproductive possibilities of any scenes or portraits. For the use of our engravers clear detailed original pictures or photographs are most essential.

For the printing of your notes, each note to carry a steel engraved face with a major protective tint, a steel engraved back, printed signatures, numbers and series on face, paper stock - our standard bank note quality, notes cut and packed for export, we would quote you as follows:

1 Gourde Note

5,000,000 pieces, size of note:
4 3/4 x 2 3/8..................$10.75 per 1000.

2 Gourdes Note

2,000,000 pieces, size of note:
4 3/4 x 2 3/8..................$12.00 per 1000.

5 Gourdes Note

500,000 pieces, size of note:
6 5/16 x 2 11/16..............$20.00 per 1000.

10 Gourdes Note

100,000 pieces, size of note:
6 5/16 x 2 11/16..............$40.00 per 1000.

20 Gourdes Note

100,000 pieces, size of note:
6 5/16 x 2 11/16..............$40.00 per 1000.

50 Gourdes Note

100,000 pieces, size of note:
6 5/16 x 2 11/16..............$40.00 per 1000.

100 Gourdes Note

40,000 pieces, size of note:
6 5/16 x 2 11/16..............$75.00 per 1000.

We enclose herewith a dummy trimmed note of the size referred to.

Further referring to the paper stock, we would again bring to your attention the fact that this special planchetted paper which we use for bank notes is made only to our order and is the result of our study and experience in the manufacturing of bank notes in an endeavor to furnish a product which will withstand to the greatest degree the uses and abuses of circulation. Our observation is that bank notes on inferior quality of paper necessitate constant replacement of paper money and thereby greatly increase the cost of circulation.

We will be glad to have our artist prepare models for your consideration at any time should you desire.

Awaiting your convenience and your further instructions, we remain

Yours very truly,

Enclosed herewith is model of the face of the 5 Gourdes note.

The customer would like to have the line "Banque Nationale de la" tied up to the rest of the title of the Bank, instead of as shown on the model, which creates an impression that it is a note of the Republic of Haiti.

The treatment of this same style of title on one of the other denominations, I think either the 50 or 100, will give you a better idea of what is in the customer's mind.

Please return this model as soon as possible. You need not take tin types as the model is to be approved here in New York.

BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI

I am returning to you herewith the models of all the denominations of notes.

Mr. Gregory, the Vice President of the Bank, who returned this morning from abroad, has seen these models and is very much pleased with the set. He has made one or two suggestions, however, which we would like to carry out, as follows:

1 Gourde Note F-8441

Show proof of face and back in 12 Brown, also proof of face and back in P-20 Brown.

He would also like to have us make a different color combination in the background tint on the face of the 1 gourde so that it will show a greater contrast to that of the 2, especially the section of the tint at the two ends of the note.

2 Gourdes Note F-8442

Show proof of face in Blue 9.

5 Gourdes Note F-8465

Alter present design by taking out the "G" on the four corners so that the "5" will appear prominently. If you wish, you can show the "G" underneath the numeral in the engraving like you have done on the 10 gourdes. The denomination in the center of the note need not be changed.

20 Gourdes Note F-8467

Make denomination in upper right hand corner of note more prominent as this is the only numeral appearing on this end of the note.

These need not be submitted to the customer for approval.

Confirming advice of yesterday, the text on the face and the back of the above denominations of notes is to be changed. We have received this morning from the bank the changes as follows:

On the face of each of these notes the date shall be changed from "2 Mai 1919" to "12 Avril 1919". The back of each denomination is to be changed by changing the date from "2 Mai 1919" to "12 Avril 1919", and the word "pour" substituted for the = (equal sign) between the words "gourdes" and "un". The complete text should therefore read, as follows:

> Ce billet, émis par la Banque Nationale de la République d'Haïti, en vertu de son contrat de concession, et conformément à la Convention du 12 Avril 1919, est payable au porteur en monnaie légale des Etats-Unis d'Amérique au taux de Cinq gourdes pour un dollar à présentation au guichet de la Banque à Port-au-Prince, et sous délais de route à ses guichets de Province.

50 Gourdes Note F-8468

We are advised by the Bank that the date for the face and back of this denomination will be different than the other denominations. This issue has, as yet, not been authorized by the Haitian Government and we will therefore have to wait a while for the date. It is all right, however, for you to go ahead with the rest of the engraving excepting this text for the face and the back.

The 1 and 2 Gourde notes are still the denominations which are wanted first.

Gentlemen: Attention: Mr. Lane

With reference to the printing of gourde notes for the Banque Nationale de la Republique d'Haiti, the date on the face of the notes should be changed from "2 Mai 1919" to "12 Avril 1919" to conform with the text appearing on the back of the notes which is as follows:

> "Ce billet, émis par la Banque Nationale de la République d'Haiti, en vertu de son contrat de concession, et conformément à la Convention du 12 Avril 1919, est payable au porteur en monnaie légale des Etats-Unis d'Amérique au taux de Cinq gourdes pour un dollar à présentation au guichet de la Banque à Port-au-Prince, et sous délais de route à ses guichets de Province."

verbal Mr Gregory leave out underscoring on these words [illegible] 9/29/27

Inasmuch as the 50-gourde notes are not yet authorized by the Haitian Government, it will be necessary for you to delay the preparation of the plates for the same as the text will bear a different date. You will be advised as soon as a law authorizing this issue shall have been enacted.

With reference to numbering the notes in question, you will procede as heretofore, i. e. each denomination of these notes shall be subdivided into series, not to exceed one million gourdes, designated alphabetically, following the last letter of the present issue but omitting the letters "I" and "O" and each denomination to be numbered consecutively commencing with number one.

Gentlemen:

Attention: Mr. Lane.

In your letter of September 29, 1927 you state:

"It is our understanding that in the engraved text we are not to show the scoring underneath the words "Cinq gourdes"; likewise the quotation marks are not to appear, also the accent over the "i" in Haiti is to be shown as on the present issue. These changes will be made in the engravings."

We wish to confirm that your understanding as outlined above is correct.

We note that for the new 20, 50 and 100 gourdes note issues, that the respective first series of 1,000,000 Gourdes do not bear a distinctive letter under the plan of numbers outlined in your letter of September 29.

Please note that we wish the new issues of larger denominations lettered and numbered as follows:

20 Gourdes Note -

A 00001 - A 50000
B 00001 - B 50000

50 Gourdes Note -

I am sending you under separate cover a frame containing proofs, face and back, of 1, 2, 10 and 20 gourdes notes of the old issue, which frame was made for Mr. Farnham in the early part of 1920. These proofs are for destruction or disposition otherwise as you see fit.

On the above number, we have entered an order to prepare two frames to go on a mantel over a fireplace in Mr. Gregory's office. As these are to be companion frames, I presume that they should be alike in size and style. Gentlemen: Attention: Mr. Lane.

Please refer to your letter of September 29, and ours of October 6 regarding the lettering and numbering of the notes which you are printing for the Banque Nationale de la Republique d'Haiti.

It has been very recently approved by the necessary authorities, that in the future, that the numerical sequence for the respective symbols in the various denominations should cover 1,000,000 notes instead of the value of 1,000,000 Gourdes as heretofore. This will not in any way affect the numbering of the one gourde notes as outlined in your letter of September 29, but please note that the other denominations should be lettered and numbered as follows:

2 Gourdes Note -	K 000001 - K 1000000 L 000001 - L 1000000
5 Gourdes Note -	C 000001 - C 500000
10 Gourdes Note -	B 000001 - B 100000 (unchanged)
20 Gourdes Note -	A 000001 - A 100000
50 Gourdes Note -	A 000001 - A 100000
100 Gourdes Note -	A 000001 - A 040000

Regarding the 50 Gourde notes it will now be in order to proceed with the printing of this denomination with the understanding that wording and date reference should be the same as on the plates for the other denominations.

Subject: The Action of Cedar Wood on printed impressions.

We have come to the conclusion that the action that takes place on printed impressions when same is confined in Cedar Wood is as follows:

The natural oil contained in Cedar Wood vaporizes from the wood and coming in contact with paper, it merely permeates it, and from paper this oil will, in turn, vaporize without any chemical reaction.

When the Cedar oil vapors come in contact with printing ink they condense and a slow chemical action begins. This action, in effect, is partially dissolving, but mainly deoxidizing. The effect of deoxidizing is to change the oil back to its viscus form. (Linseed oil becomes solidified or dried from oxidation.)

The degree of reaction between printing ink and Cedar oil is governed by several factors viz.,

1. The older the printed impression, the more thoroughly the printing is oxidized. Therefore, the action of Cedar oil is slower on an old impression than on a freshly printed one. Freshly printed impressions, after being allowed to dry, are affected in about 90 days, while it took over a year to affect very old impressions of the same ink.

2. The nature of the color pigments and oils contained in the printing ink varies the action of Cedar oil vapors. Some oils and pigments offer greater resistance to deoxidation than others.

3. The greater the mass of ink on an impression, the more pronounced is the result from Cedar oil vapors.

Most of our steel plate inks are affected by the action of Cedar oil vapors and while it may be possible to either greatly reduce or eliminate this action, it would mean a complete alteration of formulae and using an oil that is not so easily controlled as our present one.
